To whom it may concern,

It is with much enthusiasm that I am writing to recommend FOG System.

We tested many products on the market and FOG System turned out to be the only biological solution that works absolutely reliable.

FOG System is easy to use in the kitchen and ensures best possible maintenance for sinks and drainlines. The quality of the waste water in the grease traps (fat and oil, non-volatile lipophilic substances) is very good. The grease traps do not smell unpleasant at all and we need to clean them only once at the end of the season.

The benefits of FOG System are unparalleled and we have always been completely satisfied with the performance of FOG System and the superior service provided.

I'm happy to highly recommend FOG System to any hospitality company on it's path to a sustainable future.

Sincerely,

Karl Zuzic
Ecology Department Manager
